About This Course:

A. Course Description/ Purpose	<p>Each Certified SuperSlow Instructor <i>KNOWS</i> that effectively progressing clients in their exercise is in large part based on the Instructor's skill to accurately <i>register, chart and track</i> their client's performance. Being brilliant with these basics is critical to optimizing the sequence of your client's exercises for each work out.</p> <p>In the course, you will refresh and deepen your technical skills for registering and charting and increase your ability to make effective assessments of your client's performance, or 'tracking,' so that you do your part in your client's progress. Your excellence with these fundamentals is also essential to having other Instructor's effectively train your clients.</p> <p>Additionally, reviewing TUL for the novice, veteran and very-advanced clients may help you progress your current clients differently than you are.</p> <p>Designed as a highly interactive course, students will maximize their skills development. A totally different class from Equipment Nomenclature & Conventions but essential to being an exceptional SuperSlow Instructor.</p>
---------------------------------------	---

B. Learning Objectives – The student will learn:

1. Refresh and deepen your technical skills for registering and charting and increase your ability to make effective assessments of your client's performance, or 'tracking,' so that you optimize the sequence of your client's exercises each work out.
 - a) Ensure that you have high standards in the fundamentals stated in #1, above, so that other Instructor's can effectively train your clients.
 - b) Review TUL for the novice, veteran and very-advanced clients which may help you progress your current clients differently than you are.
